

## South Wales Paediatric Respiratory Group

Dear all

Here is the meeting agenda for Friday 15<sup>th</sup> June. Kate has kindly booked Bridgend Postgrad for the afternoon (Seminar Room 4) from 12.30-17.00 but i thought 1.30 would be a good time to start. Please have a think about the issues listed below. I envisage lots of discussion around these topics – this meeting is to get things started and to develop a communal approach forward – its mostly secondary care – so my role will be to facilitate. RHIG is designed to standardise and develop service tracking for QI – so we do need consensus on many of these topics and a communal QI programme.

Please make every effort to attend – it would be great to have representation from nurse, doctor (and even pharmacist) from each hospital

Best wishes

Julian

### Meeting agenda (RHIG meeting 1)

1.30 - 2.30:

#### Review of resources for asthma service provision in secondary care

- Service requirements from asthma deaths enquiry
- Local implementation for resource improvement
